15. LIGHTNING AND INCLEMENT WEATHER

Recognition and Management:

Coaches, athletic trainers, athletes, administrators and contest officials should be educated regarding the signs indicating thunderstorm development. Since the average distance between successive lightning flashes is approximately two to three miles, ANYTIME that lightning can be seen or heard, the risk is already present. Weather can be monitored using the following methods:

- **Monitor Weather Patterns** – Be aware of potential thunderstorms by monitoring local weather forecasts the day before and morning of the competition, and by scanning the sky for signs of potential thunderstorm activity
-
- **National Weather Service** – Weather can also be monitored using small, portable weather radios from the NWS.

The NWS uses a system of severe storm watches and warnings. A watch indicates conditions are favorable for severe weather to develop in an area; a warning indicates severe weather has been reported in an area, and everyone should take proper precautions. *Any thunderstorm poses a risk of injury or death even if it does not meet the criteria for severe weather. Therefore, anytime thunderstorms are in the forecast (even if it is only a 20 percent chance, event organizers should be at a heightened level of awareness to the potential danger of lighting.*

Management:

- **Evacuation** – *If lightning is imminent or a thunderstorm is approaching, all personnel, athletes and spectators should evacuate to available safe structures or shelters. A list of the closest safe structures should be announced and displayed on placards at all athletic venues.*
- **Thirty-minute rule** – *Competition or practice should be suspended once lightning has been recognized or thunder is heard. It is recommended to wait at least 30 minutes after the last flash of lightning is witnessed or thunder is heard prior to resuming practice of competition. Given the average rates of thunderstorm travel, the storm should move 10-12 miles away from the area. This significantly reduces the risk of local lightning flashes. Any subsequent lightning or thunder after the beginning of the 30-minute count shall reset the clock, and another count shall begin.*

16. INTERRUPTED TOURNAMENT

Any OHSAA tournament interrupted due to events beyond the control of the responsible administrative authority shall be resumed from the point of interruption.

17. UNIFORM

Players must wear proper tennis attire in all tournament matches. Appropriate tennis attire is defined as clothing specifically manufactured for tennis wear, preferably in the school's colors. **Any lettering or pictures on clothing (including hats) must pertain to the school name or emblem.** Exception – Manufacturer's names or logos are permitted on all tennis uniforms provided they do not exceed one and one-half inches in height. "Doubles" teams players shall wear like color tops. Any visible undergarments that extend below the uniform shorts or skirt shall be the same color of the shorts or skirt or represent school colors or be all white or all black. The dress code is to be enforced by the tournament manager. Failure to comply will result in a player being denied the right to participate. Further information can be found in the uniform regulations contained in the OHSAA general sports regulations.

18. UNSPORTING CONDUCT PENALTY

During participation in OHSAA Tournaments any student or coach ejected for unsporting conduct or flagrant foul shall be ineligible for the remainder of that day as well as for all contests in that sport until two regular season/tournament contests are played.

Individuals ejected for unsporting conduct shall be reported to the OHSAA Commissioner by the tournament manager. The Commissioner will investigate the situation and may impose additional penalties in accordance with Bylaw 12 if the situation warrants it.

Participation in an athletic contest is a privilege. Each individual is expected to conduct himself or herself in an exemplary manner while participating.

19. PROPERTY DAMAGE

There is no insurance covering property damage. If property is damaged at a tournament site by competing school teams, student body or spectators, the school from which the students and/or spectators come shall be liable and pay the cost of repair or replacement. The tournament manager is authorized to deduct from the school's share the cost of any damages caused by competing schools. Other damages to facilities not attributed to a competing school could be a legitimate tournament expense and may be deducted from tournament receipts. If damage is extensive, the District Board or Board of Directors will become involved. Student crowd control at the state-sponsored tournaments is the responsibility of the principals of the competing schools.
