

# All-Time Associated Press Poll Champions

Below are the Associated Press state girls basketball poll winners with regular season record (capital letters denotes also won state championship). Winning a poll title is certainly no guarantee of cutting down the nets in the state championship game. Only 22 of the 105 poll winners since 1985 — just a 21 percent success rate — have followed up a No. 1 ranking by winning the title on the floor.
